

	Product Specification	Version
		V1.0
Product Type	Visible Light Laser Lighting Module	
Product Name	VL-525-500-BR	
Product Number	K10070008	
Product Size	L*W*H=392.5*153*139mm	
Application Range Green Laser Bird Repellent is a technology that utilizes high intensity green laser beams to scare birds away from unwanted areas. It's based on the principle that birds see a green laser as a physical threat and avoid it. The green light laser bird repellent can be used in a variety of scenarios. Such as agriculture, airports, wind power equipment, photovoltaic equipment, crowd dispersal, short-term blinding and other application scenarios
